The member secretary has informed the members regarding the delay caused due to some extreme defaulters such as Dr. Rajendra Prasad from the Chemistry Department who has not yet submitted the API 2016-17 till the date of the meeting even after 14 reminders. Similarly Dr. Rajesh Singh, HOD, Statistics Department has submitted only on 27th April, 2018 after 13 reminders.

Since, the information regarding AQAR 2016-17 could not be received from some extreme defaulters such as Dr. Rajesh Singh from Statistics who has submitted AQAR 2016-17 recently on 27th April, 2018, the preparation of AQAR 2016-17 got very much delayed and could not be placed before the Management Council for necessary approval and onwards submission to NAAC till date. It is mandatory for the University to submit the AQAR 2016-17 within six months from July- 2017, but could not be submitted due to the non-receipt of information from Dr. Rajesh Singh. The committee has directed to issue letters to the extreme defaulters through the Establishment Section so that this much delay shall not occurred in the future.

The committee has discussed regarding the new format of API as per the new direction issued by the University and directed IQAC to extend the date of submission of API/PBAS 2017-18 up till 30 June, 2018. In order to regularised the submission of API/PBS the committee

has directed to sent letter to Establishment Section to take necessary approval from the University Authorities so as to start the API/PBS period for the teaching faculty starting from 1st day of the Academic session to the last day of Academic session including the summer vacation.

Item No. 4.

To note the NIRF 2018 Ranking results of MHRD and proposed action plan for the improvement of NIRF Ranking.

The committed has noted the NIRF 2018 Ranking results of MHRD and proposed action plan for the improvement of NIRF Ranking in future by constituting a committee under the Chairmanship of Dr. V.S. Sapkal Professor & Head of Chemical Technology, Dr. Prashant Thakare Associate Professor Bio-technology Department as member and Dr. S.F.R. Khadri Director IQAC as the member Secretary to analyse various possible ways and means for improving the NIRF Ranking through SWOT Analysis of the University to understand the strengths, weakness, opportunity and threats and submit the recommendation to IQAC as early as possible.

Any other item with the permission of the Chair.

Item No. 1

To review the action taken report (ATR) received from various sub-committee and give directions for follow up action.

The IQAC committee has reviewed the action taken report (ATR) received from various sub committees of IQAC and directed to collect the information from those who have not yet submitted the ATR and place them before the next IQAC meeting for taking necessary follow up action.

Item No. 2

Establishment of Bamboo Training Center in the Campus.

The Chairman has briefed the members regarding the establishment of proposed Bamboo training centre in the University campus located at the Multipurpose Hall of Physical Education with Dr. Prashant Gawande from the Department of Botany as the coordinator wherein initially two persons will be provided training from the concerned State Govt. Department regarding various skills in preparing Bamboo articles. The trained people will provide training to the others in the University Campus to encourage start up programme for making and marketing Bamboo articles through financial assistance from the Mudra Bank.

Item No. 3

To generate financial resources through consultancy services and research and consultancy with industry

The IQAC committee has discussed various ways and means to generate financial resources through consultancy services and linkages with industry. The committee suggested that, University Departments like Home Science can undertake catering services of various students function and other departmental function through consultancy services. In order to establish linkages with Industry, a meeting of HOD's of various departments such as Home Sci., Applied Electronics, Botany, Chemical Technology, Bio-Technology, Physics, Chemistry and Microbiology be organised with the Hon'ble Vice-Chancellor after the summer vacation.

Item No. 4

MoU with Bosch – Indo-German Tools

The Committee has discussed various short-term training courses to create employment opportunities to the unemployed youth to be organised in the Fab-Lab after signing MoU with Bosch Indo German Tools for which Dr. S.V. Dudul, Head, Applied Electronics as the

coordinator. After training the students will be provided employment opportunities in the company.

Item No. 5

To introduce short term courses in performing Arts – Lok Natya, Lok-Sangeet and Lok Nrutya

Dr. Manoj Tayade, Head, Marathi has proposed to start short-term courses in Performing Arts such as Lok Natya, Lok-Sangeet and Lok Nrutya in the University Campus

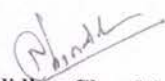

Item No. 6

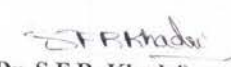

To start various short-term courses in the University Campus

The IQAC committee has approved the minutes submitted by subcommittee for starting new skill based certificate courses in the University campus and directed the Director, Life Long Learning & Continuing Education to initiate the process so that the courses can be started as soon as possible. Meanwhile, IQAC will inform the concerned HOD's to submit the detailed proposal regarding the proposed Skill Based Programmes of their department containing the Syllabus, Fee Structure, Scheme of Examination, Eligibility Criteria, Duration, Classes Timing, Teaching & Non-Teaching Faculty Remuneration, Misc. Expenditure, etc. in both soft and hard copies to the Director, IQAC on or before 25th May, 2018.

Dr. J.A. Tidke, Head Department of Botany has proposed to congratulate the Director, IQAC and the various subcommittee members of IDP of RUSA for their sincere efforts in preparing the proposals of various components submitted to RUSA for necessary funding.

Meeting ended with a vote of thanks to the Chair.

Policy for consultancy provided by University teachers

The university has been providing consultancy in various fields. However during the NAAC committee visit for 2009 to 2015 period the committee pointed out that the consultancy is low and efforts needs to be made to increase the consultancy in various field and the specialization of teachers needs to be extended in the form of consultancy. The older rules needs to be changed.

Considering the facts it was decided in the meeting of IQAC held on 21st September 2017 that a policy should be drafted for consultancy. Accordingly the sub-committee drafted the consultancy policy as follows,

1. The list of consultancy services provided will be uploaded on university's website along with the names of teachers, their emailed and phone number having the expertise for providing the service.
2. Depending upon the services the rates for consultancy services will be fixed after consulting with the concerned teacher and will be approved from Hon'ble Vice chancellor from time to time (due to increase in cost of consumables).
3. The persons or the firms can contact directly with the teacher for consultancy services.
4. The teacher after discussion the nature of consultancy will seek permission from Hon'ble Vice chancellor along with the rates of the services to be provided.
5. Teacher will start the consultancy after the permission and can take as many as research student and will seek the help of non teaching staff of the department for the consultancy work.
6. The person or firm seeking the consultancy will have to deposit 100% amount in advance in university account under the budget head of consultancy and submit the university copy with the concerned teacher.
7. The distribution of the fund will be as follows:
 - a. 50% share of university
 - b. 20% share of concerned teacher
 - c. 15% share for the purchase of chemicals
 - d. 10% share will be distributed among the research scholars and 5% for non teaching staff worked under the concerned consultancy services.
 - e. The Head of Department will provide the facilities for the consultancy services.
 - f. If more than one teacher are involved then the share will be on the part of the work provided from the 50% of the share of teacher will be shared depending upon the work after approval of Hon ble Vice Chancellor.
8. The concerned teacher will sign the report and forward through the Registrar to the person or firm seeking the consultancy.
9. Concerned teacher will be responsible and answerable for the post consultancy problems if any.

Subject : Action Taken Report (ATR) regarding the preparation of the policy document and its implementation scheme of CBCS pattern strictly according to UGC guidelines.

Ref : SGBAU/IQAC/287/2017 dated 30/10/2017

With reference to above subject, the sub-committee of IQAC drafted the scheme of CBCS pattern strictly according to UGC guidelines is as follows :

Code for Subjects	Pool of Subjects for choices from BOS	Semester	Subjects	BOS	Scheme Implementation
	Ability Enhancement Course (AEC) (Choose One from following) AEC1 AEC2 AEC3 AEC4 ----- ----- -----	Sem II	1)Paper 1 2)Paper 2 3)Paper 3 4)Paper 4 One of subject from the pool as a choice.	All the related BOS will have to prepare the related CBCS credit course paper for II nd Sem & have to include in the pool of choice based papers for campus students as per AEC.	Any student from the campus can choose one subject from
	Skill Enhancement Course (SEC) (Choose One from following) SEC1 SEC2 SEC3 SEC4 ----- ----- -----	Sem III	1)Paper 1 2)Paper 2 3)Paper 3 4)Paper 4 One of subject from the pool as a choice.	All the related BOS will have to prepare the related CBCS credit course paper for III rd Sem & have to include in the pool of choice based papers for campus students as per SEC.	AEC & one from SEC in II nd & III rd Sem respectively.

Pool of subjects for choices need to be decided by respective BOS.

Mark sheet & Degree will be awarded in the core subject for those students who have offered CBCS pattern.

Semester I & IV will be decided by BOS for the Core subjects and Discipline Specific Electives (DSE) i.e. electives for core subjects.

Advantages of the choice based credit system:

- Student may undertake as many credits as they can cope with (without repeating all courses in a given semester if they fail in one/more courses).
- CBCS allows students to choose inter-disciplinary, intra-disciplinary courses, skill oriented papers (even from other disciplines according to their learning needs, interests and aptitude) and more flexibility for students.
- CBCS makes education broad-based and at par with global standards. One can take credits by combining unique combinations. For example, Physics with Economics, Microbiology with Chemistry or Environment Science etc.

387-1783
29/11/17

CBCS offers flexibility for students to study at different times and at different institutions to complete one course (ease mobility of students). Credits earned at one institution can be transferred to another institution

The CBCS has initiated several measures to bring equity, efficiency and excellence in the Higher Education System

- * important measures taken to enhance academic standards and quality in higher education include
 - Innovation and improvements in curriculum,
 - Teaching-learning process,
 - Examination and evaluation systems

There is a need to devise a sensible system for awarding the grade based on the performance of students

So it is desirable to introduce.

- **Uniform grading system.**

This will facilitate student mobility.

- Across institutions within and across countries and

- Also enable potential employers to assess the performance of students.

To bring the desired uniformity, in grading system and method for computing the cumulative grade point average (CGPA) based on the performance of students in the examinations.

Types of choices :

Courses in a programme may be of three kinds:

-**Core**, -- Compulsorily

– a core requirement to complete the requirement of a programme

-**Elective** - Elective course is a course which can be chosen from a pool of papers. It may be:

- Supportive to the discipline of study
- Providing an expanded scope
- Enabling an exposure to some other discipline/domain
- Nurturing student's proficiency/skill.

-**Foundation** - based upon the content based upon the content that leads to Knowledge enhancement

- value-based and are aimed at man-making education through AEC & SEC.

Examination and Assessment

The UGC recommends a 10-point grading system with the following letter grades as given below:

10-point grading system

Letter Grade	Grade Point	Range of marks
O (Outstanding)	10	90-100
A+(Excellent)	9	80-89
A(Very Good)	8	70-79
B+(Good)	7	60-69
B(Above Average)	6	55-59
C(Average)	5	50-54
P (Pass)	4	40-49
F(Fail)	0	Below 40%
Ab (Absent)	0	--

Assessment :-

- A student obtaining Grade F
 - shall be considered failed and will be required to reappear in the examination.
- For non credit courses
 - 'Satisfactory' or 'Unsatisfactory' shall be indicated
 - instead of the letter grade and this will not be counted for the computation of SGPA/CGPA.

Computation of SGPA and CGPA

Semester Grade Point Average (SGPA) – is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student.

$$SGPA (Si) = \Sigma(Ci \times Gi) / \Sigma Ci$$

– where Ci is the number of credits of the ith course and Gi is the grade point scored by the student in the ith course

Cumulative Grade Point Average (CGPA)

The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

$$CGPA = \Sigma(Ci \times Si) / \Sigma Ci$$

- where Si- is the SGPA of the ith semester and Ci- is the total number of credits in that semester.
- The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

Illustration of Computation of SGPA and CGPA and Format for Transcripts

I. Computation of SGPA and CGPA

Illustration for SGPA

Course	Credit	Grade Letter	Grade point	Credit Point (Credit x Grade)
Course 1	3	A	8	3 X 8 = 24
Course 2	4	B+	7	4 X 7 = 28
Course 3	3	B	6	3 X 6 = 18
Course 4	3	O	10	3 X 10 = 30
Course 5	3	C	5	3 X 5 = 15
Course 6	4	B	6	4 X 6 = 24
	20			139

Thus, SGPA = 139/20 = 6.95

Semester 1	Semester 2	Semester 3	Semester 4
Credit : 20 SGPA: 6.9	Credit : 22 SGPA: 7.8	Credit : 25 SGPA: 5.6	Credit : 26 SGPA: 6.0
Semester 5	Semester 6		
Credit : 26 SGPA: 6.3	Credit : 25 SGPA: 8.0		

Thus, CGPA =
$$\frac{20 \times 6.9 + 22 \times 7.8 + 25 \times 5.6 + 26 \times 6.0 + 26 \times 6.3 + 25 \times 8.0}{144} = 6.73$$

Transcript (Format): Based on the above recommendations on Letter grades, grade points and SGPA and CCPA, the HEIs may issue the transcript for each semester and a consolidated transcript indicating the performance in all semesters.

Need to take the measures strictly as per UGC guidelines :

- Applicability to all UG, PG, Diploma & Certificate programs
- Need to convert the existing system into Semester system
- Need to introduce uniform structure
- desirable to introduce uniform grading system
- Courses in a programme should include
 - Core
 - Elective
 - Foundation

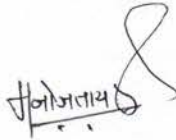

Uniform CBCS Pattern has to be approved through all concern statutory authorities (Board of Studies, Faculties , Academic Council etc.) of respective universities.

- All UG and PG courses has to prepare the detailed proposal containing Structure, Pattern, Evaluation scheme in light of Uniform CBCS pattern for Consent of Hon'ble Vice Chancellor

– Implementation of Uniform CBCS at the University level

Yours sincerely

Subject:- Action Taken Report (ATR) regarding the preparation of the policy document, guidelines and its implementation scheme to improve the existing Wi-Fi connectivity in the Campus.

Ref :- SGBAU/IQAC/289/2017 dated: 30/10/2017

With reference to above subject, the Sub-Committee of IQAC drafted the scheme to improve the existing Wi-Fi connectivity in the Campus is as attached herewith:

Strengthening the Wi-Fi connectivity in the campus :

1. Introduction :

At present considering the global demand and requirements, it is the need of the University to equipped with the modern technology i.e. Wi-Fi facilities, latest study services as a backbone, adequate speed of a bandwidth (internet and intranet), Video conferencing, virtual class room so that University teaching staff, student, researchers can have the interaction regarding their subject from any corner of the academic circle.

Sant Gadge Baba Amravati University, Amravati has about 13 Km existing OFC Network. 1GBPS leased line procured by the University under NMEICT project, various Teaching and Non Teaching Departments are interconnected in LAN University have various internetwork application runs on intranet for students and staff like Antivirus, Library Applications. Some of the teaching and non teaching departments needs to be connected through OFC to utilize the Internet connectivity and allied services, intranet applications to its full strengths.

There is need of expansion of existing OFC Network.

For that Purpose:

- To facilitate the use of the latest information and communication technology in our university teaching, learning, research and administration.
- To provide an excellent network environment that facilitates the access and exchange of information.
- To put innovation in technology transfer to assist the University in achieving its mission.
- To enable our staff and students to use our computer and network resources effectively and efficiently.

2. Objective and Statement of Requirements:

- Primary objective is to provide wireless Internet for the entire campus of Sant Gadge Baba Amravati University
- Wireless Internet Infrastructure has to be deployed for all of the following areas of the campus:
 - a) Classroom Buildings
 - b) Library
 - c) Staff Offices
 - d) Staff quarters
 - e) Canteen
 - f) Valuer Hostels

287/289
28/11/17

- In addition a secure mechanism has to be in place in order to prevent misuse of the Internet services and access to the same to be provided only to authorized users viz. students, staff, admin, etc. of the college. Also a common login page has to be provided.

3. Proposed solution for Wireless Internet:

Primarily an Outdoor Access Point solution, combined with the software solution, which also utilizes a Certificate Delivery and Management System which provides a unique 2 level security based authentication and access for comprehensive and seamless wireless service for students, admin faculty within the campus.

4. Hardware Infrastructure

In this solution deploying Outdoor Access Points which will be mounted based on the survey done and best penetration level site of the buildings of the campus. These access points will be fixed in/out of the buildings and will provide wireless signals through the windows of the buildings. Certain areas of buildings will be provided with Indoor APs.,

A total of 25 outdoor Access Points would be required and about 80 Indoor APs. Along with Wireless Controller, Radius server etc.

5. Software Solution:

Authentication for Internet access in the Sant Gadge Baba Amravati University in the following manner:

By providing a Security software which will be loaded on a server and linked to a Application Gateway will enable user authentication.

- Application Gateway (User management appliance) which will be linked to the security Software. This Application Gateway is capable of page redirection and also addressing issues such as bandwidth management and restricting bandwidth usage
- The software which will provide:
 - i) Customizable login pages
 - ii) software can be configured to provide authentication in 2 ways:
 - 1) User based authentication & MAC Based Authentication:
This is another authentication method by which if a particular user logs with his username and password from his laptop, and then tries to login again from another machine he will get a message "the user is already logged in". This addresses the problem of multiple logins
 - iii) It is possible to create an integrated report format in the CRM module, whereby all the details of user's viz. username, system log report of the particular users can all be viewed in one concise page.
 - iv) Following details can be obtained from these reports:
 - a) Usage details of a particular user: This will give the total Kbps uploaded/downloaded by each user against the username, and also other details such as MAC ID,s etc.
 - b) User browsing history: This will list all the websites visited by the particular user
 - c) Total user list:
 - 1) All users that are currently logged in
 - 2) Users whose sessions have expired (Expired user list)
 - 3) Users whose session has been renewed (Renewed user list)
 - 4) Admin user login details: This will give details of all

admin users who are currently logged in

- 5) User login failure reason: In case a particular user is unable to login, a failed login will be recorded and reasons for the login failure will also be provided (failure because username/password was entered wrongly, etc.)

Reports are possible for creating registration of users by date

6). Mobile Computing Facility:

Considering the frequent demand of the Wi-Fi from the students, teachers, staffs, researches to avail the Wi-Fi based services to mobile devices, there is a need of expansion of Wi-Fi for the entire campus and there is need of expansion of existing OFC Network.

We may raise the fund for development of these facilities either through UGC, RUSA, NMEICT project, ICSSR, New Delhi or through Donations or Endowment Fund or Government Schemes.

Yours sincerely

Subject:- Action Taken Report (ATR) regarding the preparation of the policy document, guidelines and its implementation scheme to strengthen the existing residential facilities so as to attract a wide pool of students in the University campus .

Ref: - SGBAU/IQAC/290/2017 dated: 30/10/2017

With reference to above subject, the Sub-Committee of IQAC drafted the scheme to strengthen the existing residential facilities so as to attract a wide pool of students in the University campus is as follows:

- [1] As the number of Departments and Courses are growing in the campus, there is a need to have hostels of Boys and Girls of the capacity 500 and above, to fulfill the demand of the students.
- [2] We must have separate UG hotel and PG hostel.
- [3] Similarly well equipped research students hostel is needed of good capacity.
- [4] We should have a good quality 'Faculty House'.
- [5] We can have separate hostels for NET coaching students, UPSC coaching students, Distance Education center and different other students to have coaching from University campus.
- [6] We must have "Day Care Centre" for Working Women.
- [7] We can develop the hostel for tribal students.
- [8] Similarly special hostel for children of farmers who committed suicide.
- [9] Need to develop the residential facility for staff.
- [10] Residential facility for the foreign students and faculties need to be developed of the international standard.
- [11] Special Residential facility is essential for the Specially Abled Students & Staff.

80/785
 25/11/2017

[12] To strengthen the residential facility, other supporting services such as follows need to be improved—

- Well equipped mess facility
- Well facilitated Dining Hall
- Shopping Complex which fulfill the daily needs,
- 24 hrs Health Care Services,
- Recreation Centers,
- Co-operative store
- Canteen with different food facility
- Common security services need to improve
- Health Club (Gym)
- Vehicle Facility within Campus
- Wi-Fi Facility with good strength
- Sports facility need to be improved.

[13] Certain Vending Machine just like Coffee Vending Machine need to be install in cafeteria as well as in hostel premises.

We may raise the fund for development of these facilities either through Donations or Endowment Fund or Government Schemes or through Social Welfare Departments or through State Government Funding or Special Government Schemes for Women or Special Government Schemes for SC/ST students or through University fund.

Yours sincerely

POLICY DOCUMENT**TITLE : COURSES FOR PROFICIENCY IN ENGLISH COMMUNICATION**

THE NEED : It has been observed that most of the students of Vidarbha Region, especially coming from mofussil and interior places and even those studying in City schools through vernacular media face great difficulty in expressing themselves in English.

It has also been found that even the students of professional courses have problem in putting across their thoughts and ideas in English.

Therefore it has become imperative that above mentioned students need some sort of coaching and training in English Communication especially in modern times when most of the Jobs and Scientific Research require proficiency in English.

PLAN : It is therefore suggested that the English Department of Sant Gadge Baba Amravati University should run Communication in English Courses,

DURATION of COURSES : These courses could be of Three to Six Months duration or more as the need may be. These Short term courses should be Recognised by the University.

TITLE : These Courses can be Named as Certificate or Diploma Course in English Communication.

SYLLABUS : The Course Contents should be finalized by a Committee of Subject Experts and should be recognized by the University.

TIME : The Courses can be conducted under the Supervision of the English Department of Sant Gadge Baba Amravati University at the time suitable for the Students and the Department.

CLASS ROOM STRENGTH : It is suggested that not more than THIRTY (30) students should be there in a single batch.

EQUIPMENT : Communication comprises Reading, Listening, Speaking and Writing skills. Reading and Writing practice can be done through Blackboard and/or Power-point presentation. But for Listening and Speaking, high quality Audio-Visual equipment is essential. A Language Lab with a few facilities will suffice, where the students can hear the correct pronunciation and also see how the most frequent expressions are uttered,

Thus the English department of Sant Gadge Baba Amravati University is pleased to present thos Policy document for the improvement proficiency in English communication of this University.

Action Taken Report regarding the strengthening of FABLAB

FAB LAB has been non operational since its establishment, and the use of the equipment's was negligible without any operations. The equipment's are in bad shape and needs to be restarted first. The provision for the repair has been made in budget and the process of repairs is undergoing. More ever an advisory committee has been set up under the chairman ship of Dr S V Dudul, Head Applied electronics and founder of FAB LAB with various internal and outside experts. The meeting of this committee is scheduled in First week of December. The plan is to provide services to various researches and tools required to students and engineering section in addition with certificate courses like Industrial lasers etc.

 2. IQAC minutes dated 10.5.2018
 3. Our e-mail dated 11.5.2018 regarding the submission of details about the certificate courses

Dear Sir

As per the direction of the IQAC committee held on 10.5.2018, a request has been made to all the concerned departments to submit the details of the certificate courses to be started by various teaching departments of the University Campus. This is to bring to your kind notice that till date, three departments such as Geology, Maths and Education have submitted the complete details including syllabus and receipt and expenditure regarding the certificate courses to be started from 2018-2019 for the benefit of students. I am enclosing herewith, the same both soft and hard copies so that necessary formalities and approval from the University authorities can be taken at the earliest so as to start these courses soon in the University Campus.

Thanking you and looking forward for your kind cooperation.

With Regards,

Yours sincerely

Dear Sir, we have made the same for the University Development Plan submitted to RUSA. I am sure, you are asking the same, Thanks.

Foreign Faculty Consent form

I have read the course proposal entitled <name of the proposal> submitted by <name of course coordinator> of < host Institute> under the GIAN scheme of MHRD, Government of India and agreed to the course content and schedule. I hereby give my consent to teach the course in the Department of Geology, Sant Gadge Baba Amravati University, Amravati (Maharashtra) from 7th August to 11th August 2017 or any other mutually convenient dates under the following terms and conditions:

1. 2. 3.

The course should be approved by the GIAN Implementation committee. I do not object Video-recording of my Lectures & Tutorials by the host Institute.

The Department of Geology, Sant Gadge Baba Amravati University, Amravati will (a) reimburse my economy class air fares and other travel expenses (b) pay honorarium of 200US dollars per lecture hour and 100US dollars per tutorial hour for my service and (c) arrange for free local hospitality.

My contact details are given below:

EDUCATIONAL AND PROFESSIONAL EXPERIENCE

Education

1979-83: MS in Geology, Neuchâtel University, Switzerland.

1983-88 PhD In Geology, Neuchâtel University, Switzerland.

1992 PD (Privat Dozent, Chargé de Cours), Neuchâtel University, Switzerland.

2004-2012 Associate professor, Neuchâtel University, Switzerland.

Career

1989-1990 : Postdoctoral fellow (FNS), Mexican Petroleum Institute (IMP)

1990-1993 : Postdoctoral fellow (FNS), Universidad Autonoma de Nuevo Leon, Mexico and Neuchâtel University, Switzerland.

1993-2004: Maître assistant ("Assistant professor"), head of the Mineralogical and Geochemical Laboratory, Geological Institute, Neuchâtel University, Switzerland.

2004—2012 Associate Professor, "Chargé de cours et d'enseignement" (paleontology, sedimentary-environmental mineralogy, general geology), Geological Institute, Neuchâtel University, Switzerland.

2008- Present Collaboreur Scientifique at the Institut des Sciences de la Terre (ISTE), Lausanne University, Head of the geochemistry sedimentary lab (XRD, CHN-Rock-Eval, Phosphorus).

TEACHING EXPERIENCE (since 2000)

- Paleontology
- Sequence stratigraphy
- Geochemistry of Earth system (with K. Foellmi)
- Stratigraphy and paleontology of extinctions events
- Methods of analyses (mineralogy and geochemistry)
- Clay mineralogy
- Basic mineralogy
- Mapping field work (sedimentary rocks)

LABORATORY SKILLS

- XRD machines (Philips, Scintag, ARL), Organic matter analyses (Rockeval 6 and CHN, Carlo Erba), Phosphorus analyse, LASER granulometry

FIELDS OF SCIENTIFIC INTEREST

Mineralogy, geochemistry and sedimentology, applied to global change and stratigraphy (e.g. Jurassic-Cretaceous boundary, Cretaceous-Tertiary boundary, Paleocene-Eocene thermal maximum event).

Extinction events, evolution and paleontology linked to global changes (e.g. Cretaceous-Tertiary boundary, Paleocene-Eocene Thermal maximum, OAEs)

Environmental geology, paleoclimatology, global change, phosphorus and carbon cycles, complex natural systems, self-organization, feedback loops.

Evolution of carbonate platforms, large scale changes in carbonate facies, and drowning events, sequence stratigraphy.

Biogeochemistry, particularly of low-temperature environments (incl. stable isotopes)

Continental weathering systems, chemical weathering, soil formation, in Cretaceous, Tertiary and Quaternary deposits.

Mineralogy and geochemistry of lake recent sediments.

Characterization of diagenetic to low grade metamorphism zones, by clay-minerals (e.g. IlliteCrystallinity) and organic matter (Rock-eval and vitrinite reflectance).

PROFESSIONAL SOCIETIES

Member of the Swiss society of mineralogy and petrography

Member of the International Association of Sedimentology(IAS).

Member of the European Union of Geosciences (EUG).

Member of the Society for Sedimentary Geology (SEPM).

Member of the Geological Society of America, (GSA)

Member of the American Union of Geophysics (AGU)

Member of the Clay minerals society.

Member of the Swiss Comité for stratigraphy

Member of the American Association for the Advancement of Science (AAAS)

Member of the French Geological Society

Associate Editor of the Bulletin of the French Geological Society (2004-2008)

PHDS AND MASTERS SUPERVISIONS

Direction of more than 5 PhD Thesis, Co-direction of 20 PhD Thesis and 29 participation to PhD Jury defense. Supervision of around 30 master students

Action taken report (ATR) regarding the improvement of research and consultancy with industry by Head Department of Geology

The Department of Geology has taken various measures for the improvement of research and consultancy with industry due to which in recent years 3 research projects and consultancy with industry work successfully completed the details are as follows –

1) Research

- a) **Title of the Project** - Petrological and Geochemical investigations of Deccan basalts and associated intertrappeans exposed in various quarries of Rajahmundry, East Godavari District, Andhra Pradesh (Dr. S.F.R. Khadri)
Sponsoring Agency and budget head – Innovative research activities of UGC with an outlay of Rs. 1,00,000/-
- b) **Title of Project** – Stratigraphic geochemical and geochronological studies of Deccan basalts in Krishna-Godavari basin and two correlate with western Deccan basalts province. (Dr. S.F.R. Khadri)
Sponsoring Agency – Oil and Natural Gas Commission, Rajahmundry, East Godavari District, Andhra Pradesh
- c) **Title of Project** – Geochronology and Geochemistry of Tephra, Purna Alluvial basin, Maharashtra, Central India.
Sponsoring Agency – Department of Science & Technology, New Delhi with an outlay of Rs. 28,49,000/- (Dr. A.K. Shrivastava)

2) Consultancy with industry

- a) **Title of the consultancy** – Inspection of WTP site, Tapovan, Amravati
Name of Consultant – Dr. S.F.R. Khadri, Head, Dept. of Geology, SGBAU
Consultancy done for Maharashtra Jeevan Pradhikaran, Amravati
Amount of consultancy – Rs. 5,000/-
- b) **Title of Consultancy** – Resistivity survey for Bore well
Name of Consultant – Dr. Y.K. Mawale, Dept. of Geology, SGBAU
Consultancy done for Dr. Rajendra Gode Institute of Technology & Research, Amravati
Amount of Consultancy – Rs. 1500/-

Respected Sir,

As per above reference, I bring to your kind notice that we have done MOU with Melghat Tiger Reserve, Amravati and R.D.I.K. College, Badnera and will do research work in collaboration.

As far as consultancy is concerned we analyzed tap water samples send by AMC for the identification of worms and also doing identification of species of snakes / turtles or other animals without charging any fees.

Thanking you.

At the outset, the Member Secretary welcomed the Hon'ble Chairman and the members present in the meeting and requested the Hon'ble Chairman to commence the business of the meeting of sub committee of IQAC. The Hon'ble Chairman also welcomed all the members.

The committee members have discussed various issues related to the filing of patents through the IPR Cell of the University and also various possibilities regarding the earnings to be generated from the patents. Dr. S.K. Omanwar, Coordinator, Patent Cell has briefed about the various activities such as workshops organized by IPR Cell and also efforts being made by the IPR Cell to encourage the faculty to file the patents and also the MoU with BLI in order to increase the patents to be filed by the University Teachers. He also mentioned that most of the patents filed by the University teachers are academic oriented and hence earning from the patents can be obtained only after its grant and commercialisation which requires long period.

The committee members have recommended to organise One Day seminar for the teaching faculty and research scholars of the University so as to encourage them for filing the patents through the IPR Cell and the IQAC. It was also decided that the IPR Cell will circulate the IPR policy of the University approved by the Management Council along with questionnaire to the Heads of Teaching Departments with a request to circulate the same among the faculty members for making suitable suggestions for further improvement.

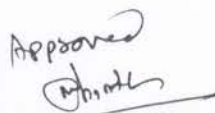

The meeting ended with vote of thanks to the Chair.

Minutes of the meeting of the NIRF Sub Committees constituted by IQAC for improving the NIRF Ranking of the University and different measures to be taken for improvement through the SWOT analysis of the University was held during 26th & 27th November, 2018 under the Chairmanship of **Dr. V.S. Sapkal in the IQAC Meeting Hall, Sant Gadge Baba Amravati University**

The following members were present --

|----------------------|-----|------------------|
| 1) Dr. V.S. Sapkal | --- | Chairman |
| 2) Dr. P.V. Thakare | --- | Member |
| 3) Dr. S.F.R. Khadri | --- | Member Secretary |

At the outset, the Member Secretary welcomed the Hon'ble Chairman and the member of NIRF sub-committee present in the meeting and requested the Hon'ble Chairman to commence the business of the meeting of the NIRF Sub-Committees. The Hon'ble Chairman also welcomed all the members.

The earlier meetings of the NIRF sub-committee were held on 25th July, 2018, 14th August, 2018, and 3rd October, 2018.

As per the direction of the Hon'ble Vice-Chancellor, sub-committees were constituted on five ranking parameters under the different co-ordinators with different members in the sub-committee meeting dated 25th July, 2018.

The meeting of the sub-committee was held on 14th August, 2018 in which detailed discussions were held on ranking parameters of NIRF. It was decided to submit recommendations on various parameters by the various sub-committees based on the methodology for ranking of academic institutions prescribed by MHRD in the year 2018. Till date only recommendations of one sub-committee on the parameters of Teaching, Learning and Resources has been received. The Committee has gone through the NIRF Guidelines regarding ranking parameters and the recommendations of the committee constituted by IQAC regarding improvement of NIRF ranking of the University and different measures to be taken for improvement through the SWOT analysis of the University is as follows.

As per the summary of NIRF ranking parameters and weightage given in 2018, there are five parameters namely :-

- i) Teaching, Learning and Resources with 100 marks and 0.30 weightage.
- ii) Research and Professional Practice with the 100 marks and 0.30 weightage.
- iii) Graduate Outcomes with 100 marks and 0.20 weightage.
- iv) Outreach and Inclusivity with 100 marks and 0.10 weightage.
- v) Perception with 100 marks and 0.10 weightage.

Each parameter has various sub-parameters with different marks. The methodology for calculating overall assessment matrix is based on component matrix as explained in the NIRF guidelines. The maximum score that can be achieved for individuals parameters is calculated as per the formula given.

In Teaching-Learning and Resource with 100 marks and 0.30 ranking weightage making maximum score as 30 has four components i.e. namely i) Students Strength including Doctoral Students (SS) ii) Faculty-student ratio with emphasis on permanent faculty (FSR) iii) Combined metric for faculty with Ph.D. (or equivalent) and Experience (FQE) and iv) Financial Resources and their Utilisation (FRU).

Recommendations :-

- 1) Total sanctioned approved intake in the institution considering all U.G./P.G. programmes in the institution should be enhanced by increasing intake of the existing programmes, introducing new programmes and establishing new departments. The necessary infrastructure and faculty should be created through appropriate policy decision and financial budgeting.
- 2) Total number of students enrolled in the institution for all U.G./P.G. programmes of the institution should be equal to the approved intake. Attempt should be made to fill all sanctioned intake through various methods such as Advertising, Branding, Offering benefits students, Financial help, etc.
- 3) Total number of students enrolled for doctoral programme till previous academic year should be improved by encouraging research activity, research culture in the campus. All the faculty should become research guides along with various research interests.
- 4) Faculty student ratio of 1:15 should be achieved for maximum marks. Accordingly full-time regular faculty position should be filled/ created or should get sanctioned from the State Government. Policy decision should be made to appoint faculty on contract basis/adhoc basis, as such faculty who has taught in both semesters of previous academic year will be considered as per NIRF norms. Appropriate intervention be made to ensure all faculty with Ph.D. degree.
- 5) Number of faculty with higher experience ranging from 8 years to 15 years be recruited.
- 6) Average annual capital expenditure per student for the previous 3 years excluding expenditure on construction of new buildings and operational expenditure per student for the previous 3 years excluding maintenance of hostels and allied services should be enhanced. The proportion of operational expenditure per student should be about 75% of the total expenditure.
- 7) Research and Professionals Practice (RP)-
 - i) As combined metric of publication has 35 marks with 0.30 ranking weightage, the number of publications per faculty should be improved. The maximum of nominal number of faculty member as calculated on the basis of required faculty student ratio of 1:15 is to be achieved. A function based on ratio of weighted number of publication

and maximum of nominal number of faculty members is to be made favourable. As the third party source involved for calculating combined metric for publications, attention should be given for quality and number of publications by the faculty.

- ii) Combined metric for quality publication as 35 marks as the total citation count over previous three years along with combined metric for publication is to be considered. The publication needs to be of good quality for higher citation count. The function derived from ratio of number of citation in top 25 percentile averaged over previous 3 years to weighted number of publications is to be made favourable. The quality of publications can be enhanced from the advance research work assisted by sophisticated analytical instruments and technological tools. The research facility to conduct high end research need to be developed. Research policy along with adequate financial allocation need to be put in place.
- iii) For improving the IPR and Patents, attempt should be made to file the patent so as to earn marks on patent published and granted. There should be separate patent and IPR policy of the university including training for patent filing, awareness, filing procedure and financial support, etc. There should be a mechanism to analyse and assess various project works to be considered for filing patents. The centre of innovation, incubation and linkages can facilitate creation of intellectual property.
- iv) Foot print of projects, professional practice and executive development programmes be started. Attempt should be made to increase research funding earnings by way of submitting number of proposals to various funding agencies. At university level, facility be created to grant research funds from general fund. A separate consultancy policy and guidelines should be created to facilitate utilization of expertise of teachers to industry, organisations, etc. Effective interaction of faculty with society/industry should be established.
- v) Average annual earnings from the fulltime executive development programme should be enhanced.
- 8) Graduation outcomes has 100 marks with 0.20 ranking weightage. The metric for University examinations which depend on percentage of student (as a fraction of approved intake), averaged over previous 3 years, passing the respective university examinations in stipulated time for the programme.
- 9) Attempt should be made to get the approved intake fully filled by adopting different measures such as offering students special guidance services, scholarships, etc. The result of the examinations of the students should be analysed and corrective measures such as remedial classes, technology assisted lectures, etc. need to taken.
- 10) Metrics for number of Ph.D. students graduated has 40 marks. The average number of Ph.D. students graduated over previous 3 years need to be improved by adopting fast track Ph.D. thesis assessment process.
- 11) Outreach and inclusivity has 100 marks. Focus on improvement in percentage of students from other states and countries and percent of women, economically and socially challenged students, facility for physically challenged students need to be given. The

visibility of university programme to enhance and attract students from other state along with facilities and assistant to be provided by the university to improve percentage of women. There should be scheme to support economically and socially challenged students. Barrier free campus should be created for physically challenged students. The percentage of women faculty in senior administrative position should be improved to reach 50% women students and 20% women faculty.

12) Perception which has 100 marks. Elaborate data bank should be created for feedback from employer, professionals from the reputed organisations and a large category of academics in order to ascertain, preference of graduates of different institutions. This facility should be online and dynamic in nature.

13) Attempt should be made to undertake various activity so as to generate data to be filled in NIRF online datasheet so that no parameter remains nil for the university.

As the norms and procedure of NIRF ranking are being updated every year, a inclusive data bank on various parameters and sub-parameters should be created. Appropriate policy decision can be made to match the expectation of NIRF ranking.
