and other teaching departments of SGBAU

About Event and Organizer:

Board of Innovation, Incubation & Linkages of Sant Gadge Baba Amravati University [Start-up and Innovation Policy (SSIP) unit of State Education Department, Government of Maharashtra in collaboration with All India Council for Technical Education (AICTE)] are going to organize Annual National Project Competition “Student Innovation, Start-ups and Ecosystem` during March 05-07, 2019.

The project competition provides an excellent opportunity to the students to showcase their talent, research orientation and untapped potential. The goal of this competition is to prepare the future generation of engineers not only problem solvers but to be innovative leaders and responsible citizens.

The student deserves recognition of the amount of hard work done for the project. This year SGB Amravati University Development of Innovation, Incubation & Entrepreneurship (AUDiiE) Centre and Department of Computer Science & Engineering has taken up the responsibility for hosting project completion at National Level Competition at its campus.

Preamble:

Government of Maharashtra under Maharashtra State Innovation Society (MSInS) has started various flagship programs to promote innovation and start-up culture across all universities in Maharashtra. It has developed a comprehensive strategy, Student Start-up and Innovation Policy (SSIP) at the state level and allocated 200 Crore to achieve its goal. AICTE has many policy initiatives and program interventions to streamline and strengthen innovation and startup ecosystem in Higher Educational institutions (HEIs) across India. Among initiatives, setup of MHRD`s Innovation Cell at AICTE and implementation of programs such as Smart India Hackathon (SIH), Institution's Innovation Council (IIC) Network, Atal Ranking of Institutions on

Innovation Achievement (ARIIA), introduction of new academic Program on Innovation, Entrepreneurship and Venture Development, student startup policy to enable students engage in innovation and startup activities during academic and enabling them to devote more time for innovation/startup by reducing the burden of classroom credit requirement, making internship and induction program compulsory etc. are few among many initiatives.

Project enables students and faculty to transform their learning into knowledge, knowledge into action, action into practice. Technical project competition allows students to practice soft skills while reinforcing their engineering knowledge. The contest helps students to consolidate their knowledge and professional skills. They have the opportunity to improve soft skills such as communication, presentation, teamwork and problem-solving and technical abilities beyond boundaries. The project contest gives students a lot of knowledge and inspired them to try and improve academic activities to enhance knowledge and skills, prepare them for industry readiness. This may results to turn engineering projects into prize winning entries and may transform project into commercial product. In order to promote and encourage young entrepreneurs, it is absolutely necessary to inform them about self-employment opportunities and to convert "job-seekers" into "job-generators". Entrepreneurship,

Innovation session would help to foster entrepreneurial culture among students, how to bridge the gap between education and industry, establish better linkages with industries, R&D institutions, financial institutions and other related organizations engaged in promoting small & medium enterprises (SMEs).

Objective:

This Annual National Project Competition on "Student Innovation, Start-ups and Ecosystem" will find participation from researchers and practitioners from across India and abroad who are working on student innovation and entrepreneurship in academia to share their learning and present paper/insights. Incubators, Innovation centers, Start-up ecosystem enablers, academia and allied organizations will also participate to present their efforts and insights. This competition will host programs like round table, master-class seminars, doctoral colloquium, policy boot camps, hands-on-workshop and case study presentations related to participants' projects models. The core idea of this endeavour is to provide platform to academic researchers, practicing professional and various states engaged in start-up India efforts to share their efforts and experiences in pre-incubation/student innovation/incubation and start-up support efforts.

Objectives Project Competition:

- To stimulate students and researcher to work on exciting project
- To understand best practices and demonstration of diverse project, new innovations, etc.
- To provide networking opportunity with industries that can help create breakthrough
- To relate the functioning of industry while working on project and understand how does industry function? Challenges and opportunities
- To understand how to become entrepreneur? And understand challenges in entrepreneurship
- To build the capacity to exhibit entrepreneurial behavior for business success
- How to start and run new industries and improve on existing ones
- How to improve interpersonal competence

Who can participate?

- Art, Commerce, Science; Engineering & Technology, Pharmacy

The proposed Technical Project Competition is recommended for students (UG, PG, Research Scholars) from Instrumentation & Control, Electronics, Electronics and Telecommunication, Electrical, Computer, Mechatronics, Information and Communication Technology, and Allied Engineering Branches, and *for all those interested in exhibiting their ideas, innovations, developments while working on a specific project to solve real world problems / industry specific problems.* This will help to promote intercultural and inter disciplinary dialogue and cooperation, through the involvement of students, teachers, and industry personnel across the country.

Participations:

Aspirant participants can submit their work in various themes like:

A) Enabling and sustaining culture / Ecosystem for fostering student innovation and

- a) Start-ups,
- b) Need Identification, validation, design thinking, Product Designing,
- c) Intellectual Property strategies for academia
- d) Best practices and next practices in promoting student Innovation and Start-ups,
- e) contribution to policy, pedagogies and implications,
- f) Translation and Exploitation of Research in academia for Start-ups, Deep Tech

B) Start-up Ecosystem and

C) Early stage innovation and student start-ups.

Projects must be the original design and creation of the entrant(s).

Disciplines covered are any of the following but not limited to:

- 1) Computer Science & Engineering
- 2) Information Technology
- 3) Electronics (Science & Engg.) & Instrumentation
- 4) Electrical Engineering
- 5) Mechanical Engineering and its allied disciplines
- 6) Civil Engineering, Environment Engg
- 7) Chemical Technology & Sciences
- 8) Agricultural Engineering including Biotechnology & Biomedical.
- 9) Textile Engineering
- 10) Other Science and engg disciplines

Category

Level 1: UG Level & Above (This stage)

Level 2: Startup Level & Industrial (later to this stage)

11)

• **Prizes:**

1st Prize : 15,000/-

2nd Prize : 10,000/-

3rd Prize : 5000/-

- In addition, work order from SGBAU Incubation Centre will be issued to all winners

• **Prizes will categorized under each of the following Groups:**

- 1) Computer Science & Engg. And Information Technology.
- 2) Electronics Science & Technology, Electrical, Instrumentation.
- 3) Civil Engineering, Mechanical engg and allied
- 4) Other Science & Engg . Disciplines like Textile, Chemical, Biomedical, Biotechnology, Agriculture .

• **Qualifying points for Prizes are as below:**

Points from 86 to 100 are qualified for First Prize

Points from 76 to 85 are qualified Second Prize

Points from 66 to 75 are qualified Third Prize

• **Evaluation Criteria:**

- Utility of Concept
- Innovation
- Technology Advancement
- Societal Use
- Cost efficient
- Commercialization
- Startup Convertible
- Patentable

- Complexity
- Ease of Use
