Department organizes its own entrance examination. Depending upon the scores, the students below 50 percentile are identified. Generally, B.Sc. with Biotechnology students have completed some of the part of foundation courses, the remaining ones, students from rural areas, need more attention.

Weekly tests are organized on every Friday afternoon. These tests are based on regular syllabus as well as based on previous NET papers. These tests also help to find slow learners. These students are then guided by the teachers, wherever they need guidance. Advanced learners are also marked through these tests. If these students are interested to appear for competitive exams, teachers help them to solve the queries related to these exams. They are also guided for using good resources.

		Department of Biotechnology			M.Sc. Biotech	TIME TABLE W.E.FROM 06-07-2019					
Time		9:30-10:30AM	10:30-11:30	11:30-12:00	12:00-1:00	1:00-2:00	2:00-3:00	3:00-4:00	4:00-5:00	5:00-6:00
