

Sant Gadge Baba Amravati University, Amravati

Department of Home Science

Course outcome /Attainment of students

The curriculum of Home Science is outcome based which provide scope for enhancing various abilities of the students on personal and professional level so that they can use enhanced capabilities for the better living. The courses taught have substantial scope for evaluation of opportunities for skill building, enhancement of conceptual understanding of research through experiential and fieldwork learning. The program outcomes can be measured in terms of defined continuous internal assessment by periodic unit tests, assignments and test exam for quantification of internal marks. The students have better performances and achievements in university exams and also adjudged as merit holders. The enhanced abilities motivate students for internships, appearing for the state and national level competitive examinations, seeking entrepreneurial opportunities and development of research attitude needed for progression to higher education. Students are empowered both in knowledge and skills by involving them in seminars, presentations on the topics, and preparation of the ICT tools, field visits, education programmes, various workshops and training programmes. Their participatory approach, performance and readiness for problem solving is the reflection of course outcome. Students are involved in various extracurricular activities and extension and outreach activities like celebration of Breast Feeding Week, National Nutrition Week/ National Nutrition Month, Capacity Building Workshops, Entrepreneurial Skill Development opportunities, Field visits and surveys. Involvement in these activities helps the students to understand the importance of various issues and strategies to overcome these issues for better self and society which is the appreciable course outcome.
