

SantGadge Baba Amravati University
Department of Commerce

KI 2.6.2 : Attainments

Department of Commerce, Sant Gadge Baba Amravati University provide competent learning experience to the students admitted to Master of Commerce Programme. This programme focusses on developing skills among the students. With the help of the skills and experience gained, students are able to solve real problems associated with any profession.

In this programme, there are various courses that upgrade the knowledge of Management and Accounting principles. Also, the courses like Strategic Management, Research Methodology, Entrepreneurship and Skill Development offer first-hand experience to students for analysing and solving the issues of business profession. It gives research-oriented knowledge and includes methods like analysis, interpretation, evaluation of the information to provide feasible solutions. In this regard subjects like Statistical Analysis, E-commerce and legal security, Corporate tax Planning and Management are the most beneficial.

In the department many internal assessments are conducted during a year. This is to evaluate that students are understanding the core and concepts of the subjects. Assignments are to be done by the students to enrich themselves in each and every subject. Due to consistent efforts of the faculty members students showed up in the Merit list many times. Students are motivated to move out of the campus and conduct surveys and interview sessions with the people who work on the real field in the existing market. Many projects are assigned to students related to subjects like International Financing with the objective to provide knowledge of the things taking place at International level. The belief is in widening the horizon of the knowledge for the students.

Department also give various opportunities to students to interact and communicate with the experts of different field by conducting seminars, workshop, guest lectures etc. These activities help students to sense the concrete things of different field and its associated activities. Apart from the same, every year Skill Development Programme is arranged for students to work on their skills enrichment. Besides this after every activity and in regular chores feedback forms are to be filled by the students which is used as a prospect by the department for improvement. In a nutshell, Commerce Department develops an attitude among the students to always be prepared to explore, learn and develop things for the well

being of their life and the society. All these efforts of the department has resulted in satisfaction among the students.
