

DEPARTMENT OF BOTANY
SANT GADGE BABA AMRAVATI UNIVERSITY

Student's Attainment

The Department of Botany is striving for understanding the diversified facets of plant science motivating young talents and society to unravel the prime role of plants in evolution and synergy of nature and also committed to achieve the academic excellence and promote research towards strengthening the students' competence to fetch more and more opportunities in the field of plant science for better understanding of biodiversity and conservation strategies to sustain the life on mother earth.

The focus of the Student Attainment in the Department is to address the student's achievements and maximise the learning progress. For addressing the teaching learning process and student progression, the department has drafted the policy "Grade Improvement Mission (GIM)", under the GIM the department has included some teaching modules for the upliftment of student's growth and also monitoring the student's progression in stepwise manner. The quality of curriculum design by the university has been implemented in the department in tune with the well sophisticated instruments and other teaching aids.

The Department provides targeted assistance for progressive student learning. This assistance includes:

- Remedial coaching Classes.
- Organisation of lecture series by experts from reputed institutes in India.
- Organisation of popular lecture for creating scientific temperament in students of life sciences.
- Organisation of field and industrial visits.
- Providing the platform for mural and extra mural activities.
- Providing in house library facilities.
- Provide virtual classroom for 24/7 assistance in teaching learning process.
- To track the progression, the department has conducted tests, term end examinations and open book tests.
