RESOURCE MANAGEMENT
The specialization in Resource Management is to train students in the use of resources, human and material, to achieve better professional competence in the quality of life of the families and communities. The objectives of the specialization are:
1. To understand the significance of Resource Management in the current socio-economic context.
2. To develop professional skills in financial management and control, design of and procurement and equipment, institutional management and consumer services.
3. To develop entrepreneurial skills and self-employment potential.
4. To use and apply the use and application of computers and information technology.
5. To develop research and development skills in the field of resource management through value education.
