

Sant Gadge Baba Amravati University, Amravati

Department of Library & Information Science

Programme Outcomes, Programme Specific Outcomes and Course Outcomes

Two Programmes:

- 1. Bachelor of Library & Information Science**
- 2. Master of Library & Information Science**

Program Specific Outcomes (PSOs):

Curriculum of Library & Information Science is designed to prepare graduates and post graduates to understand both the theory and the practice in the subject. They have studied the foundations and principal ideas of the discipline and they have been introduced to the values and expectations of the profession.

We foster critical thinking about the literature of LIS and related fields and we encourage them high standards of professionalism and service.

Programme Outcomes:

Our graduates and post graduates are prepared to develop and evaluate resources and programmes and to understand the needs of many different kinds of users. Students who have completed the course curriculum are equipped to anticipate social and technological changes and to promote change that advances the profession, improves technology and encourages positive social transformation.

Course Outcomes:

- After completing course, they apply foundational concepts, theories and principles to problems of information organisation and access.
- Communicate capably with diverse stakeholders, promoting not just access to but effective use of information services and systems in specific contexts.
- Use evidence to help address information problems, meet information needs and create relationships in their institutions, communities, profession and the society.
- Apply core ethical principles to professional practice
- Lead service activities for local, state or national professional associations and communities.
- Apply latest technology and serve the community or end user effectively and efficiently.
