**SANT GADGE BABAAMRAVATI UNIVERSITY**

**DIRECTION**

**NO. 12 / 2013**

**Dated : 14/06/2013**

**Subject : Examinations Leading to the Degree of भेषजी पारंगत (Master of Pharmacy) (Two year - Four Semester Degree Course) (Credit Grade Based System), Direction, 2013.**

Whereas, Direction No.22 of 2010 in respect of Examinations Leading to the भेषजी पारंगत (Master of Pharmacy) (Two year - Four Semester Degree Course), Direction 2010 is in existence in the University.

AND

Whereas, the above Direction was corrected vide Direction Nos.9/2011, 5/2012, 26/2012.

AND

Whereas, the aforesaid Directions are related to semester pattern and credit grade system. The credit grade system is provided in above directions on the base of the marking system.

AND

Whereas, all above Directions are still to be converted into respective Ordinance.

AND

Whereas, the B.O.S. in Pharmaceutical Sciences in its meeting held on 27.8.2012, reviewed the above Directions and recommended the fresh revised draft schemes of teaching and examinations along with other details, and credit system on teaching hours basis with some necessary additions/deletions in the provisions of above direction.

AND

Whereas, while considering the revised schemes and provisions, the B.O.S. recommended that the paper titles and syllabus be kept as it is.

AND

Whereas, the faculty of Medicine in its meeting held on 2.3.2013 has accepted the above recommendations of the B.O.S. and recommended to the Academic Council with some corrections.

AND

Whereas, the Academic Council in its meeting held on 18.4.2013 vide item No.24 3) A) R-3 accepted the recommendations of the faculty of Medicine to be implemented for Summer-2013 examinations of regular students of M.Pharm. Semester-II & IV, and from Academic Session 2013-

14 & onwards for all semesters of M.Pharm. and resolved to refer the Draft Schemes of teaching and examinations alongwith other related provisins, and Draft Ordinance to the Ordinance Committee for framing Ordinance/Regulation for placing it directly before Management Council.

AND

Whereas, the Summer-2013 examinations are already in process and the Academic Session 2013-14 is commencing from June, 2013.

AND

Whereas, the above revised schemes and provisions are to be implemented instead of the provisions of Direction Nos. 22 of 2010, 9/2011, 5/2012 & 26/2012.

AND

Whereas, the above revised schemes and provisions are to be regulated by framing the Ordinance.

AND

Whereas, making of Ordinance is a time consuming process.

Now, therefore, I, Dr.Mohan K.Khedkar, Vice-Chancellor, Sant Gadge Baba Amravati University, Amravati in exercise of powers conferred upon me under sub-section (8) of Section 14 of the Maharashtra Universities Act, 1994, do hereby direct as under-

1. This Direction may be called "Examinations Leading to the Degree of भेषजी पारंगत (Master of Pharmacy) (Two year - four Semester Degree Course) (Credit Grade Based System), Direction, 2013".
2. This Direction shall come into force from-
  - i) Summer-2013 Examination for M.Pharm. Semester-II & IV.
  - ii) Academic Session 2013-14 & onwards for M.Pharm. Semester-I to IV.
3. In this Direction unless the context otherwise requires the expression "Department" shall mean the Department of Pharmaceutical Sciences and "College" shall mean affiliated college approved for conducting M.Pharm. course.
4. The several courses leading to the Degree of भेषजी पारंगत (Master of Pharmacy) shall be as follows :
  - I) Pharmaceutics
  - II) Pharmaceutical Chemistry
  - III) Pharmacology
  - IV) Pharmacognosy & Phytochemistry
  - V) Biotechnology
  - VI) Quality Assurance
  - VII) Industrial Pharmacy
  - VIII) Biopharmaceutics

5. There shall be four examinations leading to the Degree of **भेषजी पारंगत** (Master of Pharmacy) namely the first semester examination at the end of first semester, second semester examination at the end of second semester, third semester examination at the end of third semester and Final semester examination at the end of fourth semester in each of the courses specified in paragraph 4 above. The duration of the course shall be of two Academic years (consisting of two semesters in each year). The supplementary examination shall be held for all semesters of M.Pharm. examinations for FF grade examinees.
6. The duration of each semester shall be of six months.
7. The Master of Pharmacy First, Third Semester Examination shall be held in winter, and the Second and Fourth semester examination in summer at such places and on such dates as may be fixed by the Board of Examinations. Subject to the compliance with the provisions of this Direction and of other ordinances in force from time to time, an applicant for admission to -
  - A) Semester-I of First M.Pharm. shall have passed not less than one academic year previously the B.Pharm. examination of this University or of any other university recognised as equivalent thereto and shall have prosecuted a regular course of study in the department/college as prescribed in this Direction.  
Provided that, the first Semester examinee shall have passed the final B.Pharm. examination by securing not less than 45% marks or its equivalent grade point in C.G.P.A. for SC/ST category and 50% marks or its equivalent grade point in C.G.P.A. for others.ö
  - B) The Final M.Pharm. (Semester-III & IV) Examinee shall have satisfactorily completed Ist and IInd Semester i.e. the First M.Pharm. Examination of this university, and shall have prosecuted a regular course of study in the Department/College as prescribed in this Direction. An applicant for the examination to the Final M.Pharm. (Semester-III & IV) shall not be allowed to take the examination if he/she fails to submit his/her dissertation on or before the 20th December or 31st May of the calendar year in which he/she has to take the examination.
8. A) Without prejudice to the other provisions of Ordinance No.6 relating to the examination in general, the provisions of paragraphs 5,8,10,26 and 31 of the said ordinance shall apply to every collegiate candidate.
  - B) An unsuccessful examinee at the First M.Pharm. Examination (Semester-I & II), may be allowed to carry out his research work for dissertation for Final M.Pharm. (Semester-III & IV) Examination and be permitted to appear for the Semester-IV of

- M.Pharm. Examination. But his/her result of Semester-IV shall not be declared till he/she clears all lower semester examinations.
9. The fee for each examination shall be as prescribed by the University from time to time.
  10. The scheme of teaching and credits to be given with maximum marks allotted to each subject and the sessionals, papers, practicals, dissertation, and viva-voce, and seminars if any, in which a candidate is to be examined, and the minimum marks which an examinee must obtain in order to pass the examination and computation of S.G.P.A. and C.G.P.A., shall be as indicated in the **Annexures-I to IX** appended with this Direction.
  11. (i) The scope of the subject shall be as indicated in the syllabus.  
(ii) The medium of instructions and examinations shall be in English.
  12. An examinee passing in a subject or a part thereof, shall be exempted from appearing in that subject at all subsequent examinations.
  13. An applicant for admission to an examination shall satisfy the Head of the Department /Principal in the Terminal and other Tests conducted during the academic year regarding his suitability to take the examination.
  14. The Head/ Principal shall maintain in his office a complete record of marks obtained by the candidate in the sessionals. He shall send it to the Controller of Examinations in a sealed cover the final marks in sessional examination obtained by every applicant.
  15. In order to pass an examination, an examinee shall obtain not less than 50% of the total marks allotted to each written paper/practical and its respective sessional examination taken together as shown concerned annexures.
  16. If a student fails in an examination his/her marks of Internal/ Sessional Assessment of Theory of the examination shall be carried over for the next examination. However, he can give a declaration to the effect that his Internal/Sessional Assessment marks of the Theory should not be counted and his/her marks in the Theory shall be only on the basis of external examination.
  17. Improvement of Internal Assessment :-
    - If a **Ex-student** desires for improvement of internal assessment of theory/practical, he may reappear for an examination and fresh marks for internal assessment will be considered. There is only one chance to appear for improvement of internal assessment examination for internal theory/practical subject after fail in the regular examination only.

- Examination of the subject head 'Project and the Seminars' will be conducted by the institute. The criteria for marks distribution is specified in the scheme of examination. The institute must submit the marks awarded in the Project report and in Seminar to the Controller of Examination along with the periodic test marks (i.e. internal assessment marks). Once the candidate has passed in the subject head 'Project report and seminar,' the candidate will not be allowed to reappear for examination in this subject head.
18. i) An examinee for the Third and fourth semester of final year M.Pharm. examination shall carry out research for not less than six months under regular faculty guide who shall be the internal examiner. A person from industry or Research Institute possessing Post-Graduate qualification in Pharmaceutical Science in appropriate subject and not less than 5 yrs. experience in an industry or Research Institute in a responsible capacity may also be considered for appointment as Guide/Co-guide/Internal/External examiner.
  - ii) The examinee shall submit three copies of his dissertation to the Head of the Department/Principal of the college not later than 30th December or 31st May of the calendar year in which he/she has to take the examination, duly certified by the guide that the work has been done satisfactorily under his guidance. The Principal of concerned college shall submit the copies of dissertation within 15 days to the University.
  - iii)
    - a) The examination based on the dissertation shall be carried out by
      - i) The Guide as Internal Examiner and
      - ii) One External Examiner out of University area
    - b) The examiners may after conducting the seminar, dissertation work and viva-voce examination shall award the marks, out of the marks prescribed for dissertation. In case of any dispute, the decision of the External examiner shall be final. The marks shall be sealed under the signature of the External examiner & shall be handed over to the Principal for sending it to the University
    - c) If the dissertation is not found upto the mark & if the candidate fails in the dissertation, the External examiner shall give his suggestions / recommendations for re-submission / modification in the dissertation to the Principal along with a copy to the Controller of Examination of University for information.

- iv) An examinee who fails to submit his/her dissertation within the prescribed date or whose dissertation has not been accepted or fails to present himself for Viva-voce, may subject to other provisions of this Direction be readmitted to the examination at any subsequent examination provided that,
  - a) he/she pay the fees as prescribed by the University
  - b) his/her application is received by the Registrar not later than one month before the date of commencement of the examination.
  - c) he/she submits his dissertation on the same subject two weeks prior to the examination date. Examinee whose dissertation has not been accepted shall resubmit his/her work, with such additional work as may be directed at the next examination. However, an examinee wishing to submit dissertation on a fresh subject shall be required to join the department/college as a regular student.
19. As soon as possible after examinations the Board of Examinations shall publish result of the examinees and the branchwise merit list shall be notified as provided in Ordinance No.6.
20. Examinees who have passed in all the subjects prescribed for the first Year (semester I and semester II) and final M. Pharm. (Semester III and Semester IV) examinations shall be eligible for the award of degree of Master of Pharmacy.
21. Provision of Ordinance no. 18 of 2001 relating to 'An ordinance to provide grace marks for passing in a Head of passing and improvement of division (Higher Class) and getting distinction in the subject and condonation of deficiency of marks in a subject in all the faculties prescribed by the Statute No.18' shall apply to the examinations under this Direction.
22. An examinee who does not pass or who fails to present himself/herself for the examination shall be eligible for admission to the same examination on payment of a fresh fee and such other fees as may be prescribed.
  - i) A candidate who has passed the M. Pharm. Examination in any course specified in paragraph 4 may offer himself/herself in any other course as a candidate for the M. Pharm. Examination. Such a candidate may be exempted from appearing in papers in which he/she has already passed under this Direction at the first semester examination, if there is equivalence in the syllabus. However he/she is required to appear for the Semester-II, III & IV of respective specialization.
  - ii) An examinee passing the examination under subparagraph (i) shall not be eligible for inclusion of his name in Merit List.

23. The Ordinance No.6 of 2008 regarding Improvement of Division / Grade shall be applicable to the examinees under this Direction.
24. Notwithstanding anything to the contrary in this Direction, no person shall be admitted to an examination under this Direction if he has already passed the same examination in the course or an equivalent examination of any other statutory University.
25. The Degree in the prescribed form shall be signed by the Vice-Chancellor.
26. The provisions and schemes provided under the Direction Nos. 22/2010, 9/2011, 5/2012 & 26/2012 shall stand cancelled after enforcement of this Direction.

Dated : 13/6/2013

MQA – M.Pharm. in Quality Assurance

MC- M.Pharm. Common Paper

**Annexure-VII****DISTRIBUTION OF TOTAL CREDITS SEMESTER WISE :**

Year	Semester	Total Credits
First year	Semester-I	28
	Semester-II	28
Second year	Semester-III	08
	Semester-IV	12
	<b>Total Credits</b>	<b>Credits= 76</b>

**Annexure-VIII****SCHEME FOR MARK DISTRIBUTION OF SEMESTER III & IV SEMESTER-III**

The topic for the **research envisage for dissertation and seminar on recent trends in Pharmaceutical science** shall be assigned to him/her by the Guide within one month from the date of the commencement of the third semester.

**A. SEMINAR ON RESEARCH ENVISAGED FOR DISSERTATION**

Contents	Marks
1. Selection of research topic and their applicability	25
2. Introduction and information retrieval systems	25
3. Reading research papers	25
4. Skill in oral presentation	25
<b>Total</b>	<b>100</b>

**B. SEMINAR ON RECENT TRENDS IN PHARMACEUTICAL SCIENCES**

Contents	Marks
1. Introduction and information retrieval systems	25
2. Organization of material and references	25
3. Representation	25
4. Skill in oral presentation	25
5. Questioning and defending	25
6. Report	25
<b>Total</b>	<b>150</b>

\*The report shall be submitted to the respective guide/Head of Department/ Library/University.

**SEMESTER - IV****A. Dissertation Work**

Contents	Marks
1. Introduction, information retrieval systems	25
2. Experimental Work	100
3. Scientific Contents	25
4. Result/ Conclusion	50
5. Organization of scientific material, thesis, dissertation and references	50
<b>Total</b>	<b>250</b>

**B. Seminar**

Contents	Marks
1. Representation	50
2. Skill in oral presentation	50
<b>Total</b>	<b>100</b>

**C. Viva-Voce**

Contents	Marks
1. Reading research papers and depth of knowledge on work topic	25
2. Discussion	50
3. Report	25
<b>Total</b>	<b>100</b>

**Annexure-IX**  
**Sant Gadge Baba Amravati University, Amravati**  
**M. Pharm Syllabus**  
**Credit-grade based performance and assessment system (CGPA)**  
**FEATURES OF THE CREDIT SYSTEM**

- 1) Master's degree would be of 76 credits each.
- 2) One credit course of theory will be of one clock hour per week running for 12 weeks.
- 3) Two credit course of theory will be of two clock hours per week running for 12 weeks.
- 4) Four-credit course of theory will be of four clock hours per week running for 12 weeks.
- 5) One credit course of practicals will consist of 4 hours of laboratory exercise for 6 weeks.
- 6) Two credit courses of practicals will consist of 4 hours of laboratory exercise for 12 weeks.
- 7) Four credit course of practical will consist of 8 hours of laboratory exercise for 12 weeks.
- 8) Every student shall have to complete minimum 57 credits (75%) in first two semester.
- 9) First year may divide into two semesters (Semester-I & II) and shall have 10 theory courses, 2 practical course and 2 seminar
 

5 Theory courses x 4 credits	= 40 credits
1 Laboratory courses x 4 credits	= 08 credits
20 Seminar	= 08 credit
Total	= 56 credits
- 10) Second year may divide into two semesters (Semester-III & IV) i.e.-
 

Third Semester	1) Seminar on Research Envisaged for Dissertation	}	08 Credits
	2) Seminar on Recent Trends in Pharmaceutical Sciences		
Fourth Semester	1) Dissertation	}	12 Credits
	2) Seminar on Dissertation		
- 11) **Scheme Of Syllabus And Credit System** : The syllabus for the first semester is common to all M. Pharm. Specialization Courses which consist of total five theory paper and one laboratory course and seminar (2 per each subject).
- 12) Four credits shall be given for conducting the seminars for 04 hrs. in week.

- 13) Academic calendar showing dates of commencement and end of teaching, internal assessment tests and term end examination shall be duly notified before commencement of each semester every year by the affiliated colleges.
- 14) The term end examination, however, shall be conducted by the Sant Gadge Baba Amravati University in the allotted centers.
- 15) The research project shall be compulsory.
- 16) A student who passes the internal tests but fails in Term End Examination of a course shall be given FF grade.
- 17) Student with FF grade in a course would be granted credit for that course but not the grade for that course and shall have to clear the concerned course.
- 18) Grades-Marks for each course would be converted to grades as shown in following Table 1.

**Table 1: Grade point for Theory/ Practical/Laboratory course /Seminar**

Grade	Range of Marks obtained out of 100 or equivalent fraction	Grade point
AA	90-100	10
AB	80-89	9
BB	70-79	8
BC	60-69	7
CC	55-59	6
CD	50-54	5
FF	Below 50	0
ZZ	Absent in Examination	

- 19) Equivalence of the conventional division/class with the CGPA in final semester is in accordance with the following Table-2, Grade Points for SGPA and CGPA of M.Pharm. shall be as per Table-3.

**Table-2: Equivalence of class/Division to CGPA**

Sr. No.	CGPA	Class/Division
1.	7.5 or more than 7.5	First Class with Distinction
2.	6.00 or more but less than or equal to 7.49	First Class
3.	5.50 or more but less than or equal to 5.99	Higher Second Class
4.	5.00 or more but less than or equal to 5.49	Second Class

**Table-3 : Grade Points for SGPA and CGPA of M.Pharm.**

Grade Point	Final Grade
9 - 10	AA
8 - 8.99	AB
7 - 7.99	BB
6 - 6.99	BC
5.5 - 5.99	CC
5 - 5.49	CD
0 - 4.99	FF
Absent in Examination	ZZ

- 20) Based on the grade points obtained in each subject, Semester Grade Point Average (SGPA) and then Cumulative Grade Point Average (CGPA) are computed as follows.

#### Computation of SGPA and CGPA

Every student is awarded point out of maximum out of 10 point in each subject. (Based on 10 point scale). Based on the Grade point obtained in subject the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) are computed. The computation of SGPA and CGPA is as under.

Semester Grade Point Average (SGPA) is the weightage average of point obtained by a student in a semester and computed as follows.

$$SGPA = \frac{U_1 \times M_1 + U_2 \times M_2 + \dots + U_n \times M_n}{U_1 + U_2 + \dots + U_n}$$

Where  $U_1, U_2, \dots, U_n$  are subject credit of the respective course and  $M_1, M_2, \dots, M_n$  are the grade point obtained in the respective subject (out of 10).

The Semester Grade Point Average (SGPA) for all the four semester is also mentioned at the end of every semester.

The Cumulative Grade Point Average (CGPA) is used to describe the overall performance of a student in the course and is computed as under. CGPA shall be calculated on final semester of the course (i.e from Semester I-IV).

$$CGPA = \frac{\sum_{n=1}^{n=4} SGPA(n)C(n)}{\sum_{n=1}^{n=4} C(n)}$$

Where SGPA (n) is the nth semester SGPA of the student and  $C_n$  is the nth semester total credit. The SGPA and CGPA are rounded off to the second place of decimal.

#### ACADEMIC CALENDAR AND TERMS

The terms and academic activities of the college affiliated to Sant Gadge Baba Amravati University under CGPA shall be as per the dates given below, only the years shall be changed i.e. the dates shall remain same as given below irrespective of the year.

Beginning of First Term : As per University academic calendar (Semester I, and III)  
 Vacation : As per University academic calendar  
 Beginning of Second Term : As per University academic calendar (Semester II, and IV)

\*\*\*\*

**SANT GADGE BABA AMRAVATI UNIVERSITY**

**DIRECTION**

**NO. 5 / 2014**

**Dated : 03/03/2014**

**Subject : Corrigendum to Direction No.12/2013 in respect of Examinations Leading to the Degree of भेषजी पारंगत (Master of Pharmacy) (Two year - four Semester Degree Course) (Credit Grade Based System).**

Whereas, Direction No.12 of 2013 in respect of Examinations Leading to the Degree of भेषजी पारंगत (Master of Pharmacy) (Two year - Four Semester Degree Course) (Credit Grade Based System), Direction, 2013 is in existence in the University.

AND

Whereas, the Academic Council in its meeting held on 17.2.2014 vide item No.22 4) A) R-3 II) accepted the recommendations of the Faculty of Medicine to be implemented from Academic Session 2013-14 & onwards and resolved to refer the matter to Ordinance Committee.

AND

Whereas, the above corrections are to be regulated by framing the Ordinance.

AND

Whereas, making of Ordinance is a time consuming process.

Now, therefore, I, Dr.J.A.Tidke, Vice-Chancellor, Sant Gadge Baba Amravati University, Amravati in exercise of powers conferred upon me under sub-section (8) of Section 14 of the Maharashtra Universities Act, 1994, do hereby direct as under-

- 1) This Direction may be called 'Corrigendum to Direction No.12/2013 in respect of Examinations Leading to the Degree of भेषजी पारंगत (Master of Pharmacy) (Two year - Four Semester Degree Course) (Credit Grade Based System), Direction, 2014.ö.
- 2) This Direction shall come into force from the Academic Session 2013-14 & onwards for M.Pharm.

- 3) Following corrections shall be made in Direction No.12/2013 in respect of Examinations Leading to the Degree of भेषजी पारंगत (Master of Pharmacy) (Two year - Four Semester Degree Course) (Credit Grade Based System), Direction 2013 :
  - i) In para 2. i), the words, 'Semester-II & IV' be substituted by the words 'Semester-I & II'.
  - ii) In Semester-I & II of M.Pharm. Examination (All Specializations) under Annexures-I to VI, against the Title of Paper 'Seminar'
    - (a) the hours, credits '04(04)' shown under Scheme of Teaching 'Lecture (Credits)' be deleted and the hours, credits '08(04)' be inserted in the column of 'Practical (Credits)'
    - (b) the marks '50' be added in the column of Scheme of Internal Examination-Practical.
    - (c) the marks '25' be read in the column of Scheme of External Examination-Minimum Marks for Passing-Practical.
  - iii) In Semester-III of M.Pharm. Examination (All Specializations) under Annexures-I to VI, against the Title of Papers 'Seminar on Research Envisaged for Dissertation' and 'Seminar on Recent Trends in Pharmaceutical Sciences'
    - (a) the figure & word '04 Credits' shown in the column of Scheme of Teaching-Lecture (Credits) be shifted in the column of Practical (Credits).
    - (b) the marks '40 & 60' shown in the column of Scheme of Internal Examination-Theory be shifted in the column of Scheme of Internal Examination-Practical respectively.
    - (c) the marks '60 & 90' shown in the column of Scheme of External Examination-Theory-Marks be shifted in the column of Scheme of External Examination-Practical-Marks respectively.
    - (d) the marks '50 & 75' shown in the column of Scheme of External Examination-Minimum Marks for Passing-Theory be shifted in the column of Scheme of External Examination-Minimum Marks for Passing-Practical respectively.

- iv) The Scheme of Teaching, Credits & Examination prescribed for Semester-IV of M.Pharm. Examination (All Specializations) under Annexures-I to VI be substituted by the following scheme.

Semester	Paper Code	Title of Paper	Scheme of Teaching in Hrs.per week and credit system		Scheme of Internal Examination		Scheme of External Examination						Total Marks
			Lect. Credits	Pra. Credits	Th.	Pr.	Theory		Practical		Minimum marks for passing		
							Hrs.	Marks	Hrs.	Mar ks	Theor y	Pract.	
Semester -IV	*. 401	Dissertation & Viva-voce	--	10 Credits	--	100	--	--	--	250	--	175	350
	*. 402	Seminar (on dissertation)	--	02 Credits	--	40	--	--	--	60	--	50	100
<b>Total</b>						140				310			

\* - of respective specialization

Dated : 01/03/2014

Vice-Chancellor,  
Sant Gadge Baba Amravati University,  
Amravati

\*\*\*\*\*

**SYLLABUS PRESCRIBED FOR MASTER OF PHARMACY IN  
Pharmaceutical Chemistry  
(Implemented from the Session 2010-11)**

The several courses leading to the Master Degree of Pharmacy covers following subjects namely

1. Pharmaceutics
2. Pharmacology
3. Pharmaceutical chemistry
4. Pharmacognosy
5. Quality assurance
6. Industrial Pharmacy

1. There are four semesters leading to Degree of Master in Pharmacy. **The theory syllabus for first semester shall be compulsory to all above M. Pharm courses.** Second semester syllabus covers in the field of above mention specialization.
2. In third semester examination the research envisage for dissertation and one seminar on recent trends in Pharmaceutical science shall be assigned to him/her by the Guide within one month from the date of the commencement of the third semester.
3. In forth semester examination the dissertation work shall be perform by him/her and at the end student shall deliver the seminar on dissertation work and viva voce examination.

**Seminar**

Each candidate shall deliver 2 seminars per subject covering the current research interest as in journal in the field of pharmaceutical sciences. Evaluation of seminar shall be based on the communication, representation and skill in oral presentation

**M.Pharm. Semester-I  
COMMON TO ALL M. PHARM COURSES**

**Subject code: MC-101**

**Subject : RESEARCH METHODOLOGY & BIostatistics  
THEORY 60 Hours (4 hrs. /week)**

**SECTION-A**

**I. Research**

1. Meaning of research, purpose of research and types of research (clinical experimental, basic, applied and patent and oriented research) objects of research

2. Literature survey:  
Using library, book and journals, MEDLINE- internet getting patents and reprints of articles as sources for literature survey.
3. Selecting a problem and preparing a research proposal for different types of research sources of procurements of grants.
4. Documentation:  
Importance of documentation in case of research record and GMP/GLC
  - Techniques of documentation in case of research record and GMP and GLC
  - Uses of computer packages in clinical trials
  - Documentation in clinical trails
5. Research report/paper writing/thesis writing / poster presentation:  
Different parts of research report or paper
  - Title-title of project with authors name
  - Abstract-statement of the problem, background list in brief, purpose and scope
  - Key words
  - Methodology-subject, apparatus/instrumentation and procedure
  - Results-tables, graphs, figures and statistical presentation
  - Discussion-support or non-support to hypothesis. Practical and theoretical implications
  - Acknowledgements
  - References
  - Errata
  - Importance of spell check
  - Use of foot notes

## II. Methods and tools used in research:

- Research design (futures of good design, types of research designs, basic principles of experimental design).
- Qualitative studies, quantitative studies.
- Simple data organization, descriptive data organization.
- Limitations and sources of errors.
- Enquiries in forms of questionnaire, opinionnaire and interviews

## III. Presentation:

- Importance, types, different skills
- Content of presentation format of model, introduction and endings.
- Posture, gesture, eye contact, facial expression, stage fright.
- Volume, pitch, speed, pauses and languages
- Visual aids and seating arrangements
- Question and answer session

## SECTION- B

### IV. Cost Analysis of Projects and Clinical Trials

### V. Biostatistics

- Statistical analysis of data including variance, standard deviation, Parametric and Non-Parametric statistic test, corelation of data and its interpretation, computer data analysis, bio statistics for clinical trials.
- Scientific method in medicine
- Scientific equations of therapy

### Reference Books

**COMMON TO ALL M. PHARM COURSES****Subject code: MC-102****Subject : BIOTECHNOLOGY AND BIOINFORMATICS THEORY****60 Hours (4 hrs. /week)****SECTION-A**

- Genetics:** Structure and function of DNA replication & repair, expression of genetic information, structure and function of RNA, transcription, genetic code, translation, post translational modification.
- Recombinant DNA technology:** Constructing recombinant DNA molecules, restriction enzymes, vectors, gene cloning, genomic libraries, polymerase chain reaction based DNA cloning, restriction mapping, blotting technique, DNA sequencing, pharmaceutical applications of recombinant DNA.
- Gene therapy:** General introduction, potential target diseases for gene therapy, gene transfer methods, clinical studies, pharmaceutical production and regulation.
- Immunology:** Basics of immunology, Monoclonal antibodies & Hybridoma technology and its applications
- Vaccines-**conventional vaccines, modern vaccines technologies, genetically improved vaccines, genetically improved subunit vaccines, pharmaceutical considerations

**SECTION-B**

- Quality control testing methods of Biotech products:** Determining impurities/contamination (viral, bacterial endotoxins (in-vitro) rabbit Pyrogen, sterility, protein identification, finger prints by electrophoresis, isoelectric focusing immunogenicity, and partial sequential analysis.
- Immobilization of enzyme:** different techniques, effect on production of enzymes, applications.
- Plant Biotech products:** Substances produced by plant cell culture, Transgenic plants their application, Biotransformation with plant cell culture
- Molecular biology of cancer:** Causes of cancer and genetics of cancer, New strategy for combating cancer
- Introduction to Bioinformatics:** Biological databases, sequence analysis, protein structure, genetic and physical mapping, application of bioinformatics in pharmaceutical industries and in drug discovery.

**COMMON TO ALL M. PHARM COURSES****Subject code: MC-103****Subject : QUALITY CONTROL OF PHARMACEUTICAL PRODUCTS****THEORY****60 Hours (4 hrs. /week)****SECTION-A**

- Good manufacturing practices:** GMP in manufacturing processing and quality control of drugs, control of facility, personal, production and process controls, packaging and labeling controls, documents, WHO GMP guidelines. GMP for ayurvedic products, Good clinical practice (GCP), Good laboratory practice (GLP), Good Pharmacy practice (GPP)
- Validation:** Pharmaceutical process validation, equipment validation and sterile products validation.
- Quality control of pharmaceutical dosage forms:** Solid and semi-solid dosage forms, disperse systems and parenteral dosage forms.

**SECTION-B**

- ICH Stability Guidelines, Schedule M and Schedule Y**
- Spectroscopic methods:** Theory and applications of UV, IR, FTIR, NMR, Mass Spectrometry, ESR and Emission spectroscopy, XRD

6. **Separation techniques:** Introduction and applications of Gas-liquid chromatography, HPLC, Gel chromatography, gel electrophoresis, GC-MS, HPTLC, Ion Pair Chromatography.

7. **Safety into the laboratory**

Designing safety into the laboratory: Laboratory accident and First aid for chemical burns and accident, egress, hazard zoning, emergency facilities, Hazards: slippery spill of Hazardous substances and their handling.

Laboratory design-safety aspect: storage of laboratory chemicals, laboratory design;

Principle of chemical storage; inventory control; segregation.

**COMMON TO ALL M. PHARM COURSES**

**Subject code: MC -104**

**Subject: DRUG REGULATORY AFFAIRS**

**THEORY**

**60 Hours (4 hrs. /week)**

**SECTION- A**

1. Aims, objects and salient features of following legislations affecting pharmaceutical industry.
  - Industrial Development and Regulation Act 1951.
  - Consumer Protection Act.
2. Australian TGA guidelines
3. US-FDA, CDER guidelines
4. New Drug Application
5. Pollution and Environmental Control Act

**SECTION- B**

6. Drug Master File
7. Intellectual Property Rights:
  - Protection of patients and trademarks and design and copy rights and patent system in India.
  - Present status of IPR future changes expected in Indian patents.
  - What may be patented
  - Who may apply for patent
  - Preparation of patent proposal
  - Registration of patent in India and foreign countries and vice versa
  - ICH guidelines for clinical trials, therapeutic drugs monitoring drugs and bioequivalence.
  - Exclusive marketing rights
  - Black box
  - IPR and IDMA views on patents
- 1 Human health and patent laws latent lethality
- 1 Indian patent act and copyright (Indian act)
8. Drug and Cosmetics Act 1940
9. Prevention of Food Adulteration Act 1954 (5 hrs)
10. Preparation of DMF, Site Master File, Master Formula Record. Procedure for filing of Patent.

**Reference:**

- (1) Guidelines of various countries like MCA, TGA, ICH.
- (2) Drug and cosmetic act 1940 and rules their under
- (3) IPR Lecture notes

- (5) GMP for pharmaceuticals forth edition by S. Willing, J. Stocker Marcel Decker series 1997.
- (6) I.P., B.P., U.S.P. International Pharmacopoeia
- (7) Pharmacokinetics, Regulatory, Industrial, academic prospective by P. G. Willing and F.T.S. Tse.

**COMMON TO ALL M. PHARM COURSES****Subject code: MC -105****Subject : PRODUCT DEVELOPMENT AND FORMULATION****THEORY****60 Hours (4 hrs. /week)****SECTION-A****1. INTRODUCTION OF NEW DRUGS**

Steps involved in the development of a new drug, obstacles to its evaluation, limitations of screening procedures, animal toxicity tests. Extrapolation of laboratory data to man, placebo, New drug application as per WHO norms and proforma. Requirement and guidelines on clinical trials for import and manufacture of new drugs in India.

**2. PREFORMULATION STUDIES**

Investigation of physical and chemical problems inherent in the development of new formulations.

**3. PHYSICAL PROPERTIES**

Organoleptic properties, microscopy, intrinsic solubility and dissolution rate; powder flow and compression, properties and physical stability.

**4. CHEMICAL PROPERTIES**

Chemical properties : Purity, physico-chemical parameters affecting absorption, solid state and solution-phase stability and compatibility with excipients. Formulation additives : Studies on all excipients to be incorporated in the development of liquid orals, solid dosage forms. Stability data : Advanced studies on stability and development of stability data on different formulations.

**SECTION- B****5. PROCESS VALIDATION :**

Development of validation data on different formulations, Quality assurance and GMP : A Detailed study of current good manufacturing practices in manufacturing, processing, packaging and holding of drug. Product development approach on following formulations :

**6. LIQUID ORALS :**

Cough and multivitamin syrup, antifatulant and laxative emulsions, antacid and antidiarrhoeal suspensions.

**7. TOPICALS :**

Antibiotic ointment, analgesic gels.

**8. TABLETS :**

Common cold, multivitamin, chewable antacid, soluble aspirin and dispersible/kid tablets.

**9. STERILE DOSAGE FORMS :**

B-complex injection, antibiotic eye and ear drops, antihistaminic nasal drops.

**Reference Books:**

10. Connors, Chemical stability of pharmaceuticals : A Handbook for pharmacists, Wiley Inter-Science.
11. Carstensen, Drug Stability : Principles and practices, Marcel Dekker Inc.

**COMMON TO ALL M. PHARM COURSES****Subject code : MC-106****Subject : Laboratory course -1****Practical 8 hrs./week (Minimum 20 practicals should be conducted)****1. Combination Drug Analysis (any two)**

Vitamins, Sulphas, Analysis of Antipyretics and Analgesics, Steroidal anti-inflammatory drugs, Antihistamins.

**2. Illustrations of theoretical principles using assay of drugs form in various pharmacopoeias (any five).**

This should cover titrimetric, gravimetric, spectro-photometric (including flame photometric) methods. HPLC etc. The titrimetric methods should include argentometric, conductometric, and potentiometric end point determination. The students should be exposed to handling of as many instruments as possible by themselves or under the guidance of a teacher.

Validation of equipments: Autoclave, hot air oven, membrane filter (Minimum two practical).

Validation of an analytical method: Calibration of instruments as per official procedure (UV, FTIR, Conductivity meter, fluorimeter, Digital pH meter, Digital balance, Potentiometer, HPLC, Gas chromatography) (Minimum two practical).

**3. Interpretation of UV, IR, NMR,  $C^{13}$  NMR spectra and Mass Spectroscopy of some chemicals and drugs. (Minimum three combined spectra).****Reference Books**

- (1) Pharmaceutical Analysis ó Modern methods ó Part A and Part B ó J. W. Munson, Marcel ó Dekker
- (2) Quantitative Analysis of Drugs in Pharmaceutical formulations ó P. D. Sethi, VBS Publishers, Delhi
- (3) Pharmacopoeia of India.
- (4) Practical Pharmaceutical Chemistry, Part I and Part II ó A. H. Beckett, J. B. Stenlake, CBS Publishers, Delhi
- (5) Colorimetric Methods of Analysis ó F. D. Snell and C. T. Snell, Van Nostrand Reinhold Company, N. Y.
- (6) Chemical Applications of Infrared spectroscopy ó C. N. R. Rao, Academic Press N. Y.
- (7) Applications of Absorption Spectroscopy of Organic Compound ó J. R. Dyer, Prentice Hall Englewood.

**M. Pharm. (Industrial Pharmacy)****Semester – II****Subject code : MIP-201****50 Hours (4 hrs. /week)****Subject : ADVANCED INDUSTRIAL PHARMACY - I****SECTION- A****PRINCIPLES OF IMPROVED TABLET PRODUCTION SYSTEM DESIGN**

Introduction, benefits of improved tablet production system, material handling, processing step combination or elimination, unit operation improvements, Role of computer process control.

**COMPRESSION**

Process of compression, The properties of Tablets influenced by compression, Measurement of compressional force, energy expenditure, transmission of force, nature of material. Manufacture and formulation techniques of Chewable Tablets, Medicated Lozenges and Specialised Tablets.

Compression coating-Formulation, Layered Tablets and its formulation, Inlay Tablets.

**PELLETIZATION TECHNOLOGY**

Introduction, Pelletization process and formulation, equipments for pelletization.

**STERILE DOSAGE FORMS**

Formulation and processing of large volume parenterals, small volume parenterals and related parenteral products, parenteral devices.

**SECTION- B****DRYING AND DRYERS**

Introduction, mode of heat transfer, internal mechanism of moisture flow, psychrometry, drying mechanisms, drying methods for pharmaceutical granulation and equipments.

**EVAPORATION AND EVAPORATORS**

Introduction, types of evaporators, design of evaporators, operation of evaporators.

**PILOT PLANT SCALE UP TECHNIQUES**

General consideration, purpose and functions, concepts of pilot plant for development and control, planning for pilot plant, size of pilot plant. Organization and personnel, basic consideration in developing the process for production of dosage forms, GMP consideration.

Transfer of Analytical methods to Quality assurance, Product consideration, Pilot plant study design for solid dosage forms, liquid orals and semi-solids.

### Reference Books

7. Ghebre Sellasie, Pharmaceutical pelletization Technology, Marcel Dekker.
8. Swarbrick and Boylan, Encylopedia of Pharmaceutical Technology, Vols. 4 and 5 Marcel Dekker.

**Subject code : MIP-202**

**50 Hours (4 hrs. /week)**

**Subject : ADVANCED INDUSTRIAL PHARMACY – II  
THEORY**

### SECTION-A

**Inventory management, Material Management and Maintenance Management :** Costs in inventory, inventory categories - special considerations, selective inventory control, reorder quantity methods and EOQ, inventory models, safety stock - stock out, lead time - reorder time methods, modern inventory management systems, inventory evaluation. Materials - quality and quantity, value analysis, purchasing - centralized and decentralized, vendor development, buying techniques, purchasing cycle and procedures, stores management, salvaging and disposal of scrap and surplus. Selection of material handling systems, maintenance of material handling equipment, unit-load, palletization and containerization, types of material handling systems. Classification of maintenance, corrective

(breakdown) maintenance, scheduled maintenance, preventive maintenance, predictive maintenance.

**Human Resource Development:** Human resource planning, Interviews & principles required for impressive personality, Recruitment, Selection Orientation and placement, Personal training, Job analysis, Job design & job specification & Motivation. Job enlargement and enrichment, Performance appraisal and Labor welfare.

### SECTION- B

#### **Current Good manufacturing practices**

Manufacturing facilities for tablets, capsule, liquid orals, semisolids and parenterals as per schedule M. Certification for pharmaceutical industries, Schedule U and U1. Master formula record as per WHO GMP and US FDA. Drug Master files US FDA, environment management system clauses. Technology transfer guidance.

#### **ENGINEERING**

Adequate knowledge of machanical, electrical and electronic parts of pharmaceutical machinery and equipment, preventive maintenance assessing plant and machinery efficiency and life. Material handling,transfer, transport and conveyance of bulk material.

#### **SAFETY MANAGEMENT**

Industrial hazards due to fire, accident, machanical and electrical equipment, chemicals and pharmaceutical safety measures.

**Subject code : MIP-203** **50 Hours (4 hrs. /week)**

**Subject : PHARMACEUTICAL PROCESS VALIDATION AND PRODUCTION MANAGEMENT**

**THEORY**

**SECTION-A**

**INTRODUCTION**

Defination, regulatory history of process validation, regulatory basis of process validation.

**ORGANISATION**

Structure, responding departments, scope of validation work, protocol and documentation.

**VALIDATION OF STERILE DOSAGE FORMS**

Theoretical approaches, validation of steam, dry heat and ethylene oxide, sterlization cycle. Validation of radiation and sterilizing filters.

**VALIDATION OF SOLID DOSAGE FORMS**

Definition and control of process variables, guidelines for process validation of solid dosage form, validation of raw material and analytical methods.

**SECTION-B**

**PROSPECTIVE PROCESS VALIDATION**

Introduction, organisation and documentation, Formulation development and development of manufacturing capability, Scale up studies, qualification trials master product documents, Experimental design and analysis.

**PROCESS OF RAW MATERIAL**

Cost verses risk analysis, Establishment of specifications, test, procedure for sampling. Establishment of optimum storage conditions.

**ANALYTICAL METHODS VALIDATION**

Assay validation during development phase, Retrospective and prospective analytical methods validation.

**PRODUCTION PLANNING CONTROL AND MANAGEMENT**

Space allocation, environmental factors, manufacturing, materials management, forecasting cost control, Industrial relation, Enterpreunership development, Production planning and control.

**Reference Books**

1. Loftus and Nash, Pharmaceutical process validation. Marcel Dekker.

2. Balchandra and Nambudri, Production Management, Text and cases, Prentice Hall of India.
3. Lachman, Liberman and Knaig, The Theory and Practise of Industrial pharmacy, Varghese Publisher.

**Subject code : MIP-204**

**50 Hours (4 hrs. /week)**

**Subject : SELECTED TOPICS IN INDUSTRIAL PHARMACY – I THEORY**

**SECTION-A**

**FUNDAMENTALS OF CONTROLLED RELEASE DRUG DELIVERY SYSTEM**

Fundamentals, rational of sustained/controlled release drug delivery, factors influencing the design and performance of substained / controlled release products, drug targeting, pharmacokinetic/Pharmacodynamic basis of controlled drug delivery system, regulatory assesment.

**POLYMER SCIENCE**

Introduction, Polymer-classification, Applications of Polymers in formulation of controlled drug delivery systems, Biodegradable and Nonbiodegradable polymers, Properties of following commonly used polymers- Starch, Gelatin, Chitosan, Albumin, Cellulose derivatives and Poloxamers.

**SECTION-B**

**DESIGN AND FABRICATION OF CONTROLLED RELEASE DRUG DELIVERY SYSTEMS**

Novel chemical approaches for sustained drug delivery system, Prodrug approach, parenteral products, implantable therapeutic system transdermal system, ocular, intravaginal and intrauterine system.

**BIOCHEMICAL AND MOLECULAR BIOLOGY APPROACHES TO CONTROLLED DRUG DELIVERY**

Microparticulate drug carriers : Liposome, microspheres and cells, selective endocytosis of macromolecular drug carriers, antibodies for drug delivery, released erythrocytes, neosomes.

**Reference Books :**

1. Lachman, Liberman and knaig, The Theory and Practice of Industrial Pharmacy, Vargese publishers.
2. Robinson and Lee, controlled drug delivery : Fundamentals and applications. Marcel Dekker.

3. Chein, Novel drug delivery system, Marcel Dekker.

**Subject code : MIP-205**

**50 Hours (4 hrs. /week)**

**Subject : SELECTED TOPICS IN INDUSTRIAL PHARMACY – II THEORY**

#### SECTION-A

#### **OPTIMIZATION TECHNIQUES IN PHARMACEUTICAL FORMULATION AND PROCESSING**

Concept of optimization, Optimization parameters, Classical optimization, Statistical design, and Optimization methods.

#### **STABILITY TESTING**

Physicochemical and biological factors affecting stability of drugs, Methods to find out degradation pathways, Determination of shelf life by accelerated stability testing, Overages.

#### **BIOAVAILABILITY AND BIOEQUIVALENCE STUDIES**

Definition, Objective of bioavailability, Parameters of bioavailability, Determination of AUC. Estimating absorption rate of drugs; Measurement of bioavailability- Pharmacokinetic methods and Pharmacodynamic methods. Drug dissolution rate & bioavailability. *In vitro* drug dissolution testing models. In-vitro in-vivo correlation. Definitions: Bio equivalence, Chemical equivalence, Therapeutic equivalence, Pharmaceutical equivalence; Testing of bioequivalence of dosage forms.

#### SECTION- B

#### **METHODS OF ENHANCING BIOAVAILABILITY**

Solubilization, Prodrugs, and enhancement of dissolution characteristics, cyclodextrin, permeation enhancer, solid dispersion, surfactant, bioavailability enhancers.

#### **PACKAGING MATERIAL SCIENCE:**

Packing design and specification, packaging validation trials, materials of construction, component product validation, regulatory requirements, quality control testing and standards, GMP requirements and its deficiencies. In process control during component manufacture, documentation, Sterilisation of packing component, packaging and filling equipment, pharmaceutical packaging including sterile area.

#### **MANUFACTURING TECHNIQUES AND EVALUATION OF COSMETICS**

Manufacturing of Cosmetics like creams, powders, compacts, shampoo, lipstick liquids, foam, aerosol cosmetics and their Performance, physicochemical and microbiological evaluation. Design and Assessment of preservative systems for cosmetics, valuation of preservatives in cosmetic products and factors affecting activity of preservatives.

#### **References:**

2. Modern Pharmaceutics; By Gillbert and S. Banker.
3. Physical Pharmacy; By Alfred martin
4. How to practice GMPs; By P.P.Sharma. Vandhana Publications, Agra.
5. Bentley's Textbook of Pharmaceutics ó Rawbins.
6. Drug formulation manual; By D.P.S. Kohli and D.H.Shah. Eastern publishers, New Delhi.
7. Biopharmaceutics and clinical Pharmacokinetics By Milo Gibaldi.
8. Biopharmaceutics and Pharmacokinetics; By Robert E. Notari.
9. Biopharmaceutics and Clinical Pharmacokinetics- An introduction; 4th edition, Revised and expanded By Robert. E. Notari, Marcel Dekker Inc, New York and Basel, 1987.
10. Biopharmaceutics; By Swarbrick.
11. Modern Cosmetics by Thomson.

**Subject code : MIP-206**

**Subject : Laboratory Course – II**

**Practical 8 hrs. /week (Minimum 20 practical should be conducted)**

#### **Practicals:**

- 1) To study the effect of particle size, moisture content and lubricants on flowability and compressibility of powders.
- 2) To study various micromeritic properties of granules.
- 3) Development and formulation of the following dosage forms: Cough syrup, multivitamin syrup, antibiotic dry syrup and suspension, antibiotic dispersible tablet, chewable tablet, antibiotic ointment, external application, lozenges and sterile dosage of antibiotics and anti-inflammatory drugs.
- 4) To perform sugar coating and non-enteric and film coating on tablets.
- 5) To prepare and evaluate sustained release drug polymer matrix,
- 6) To prepare and evaluate microcapsules of different drugs by various technique.
- 7) To prepare pellets by suspension and emulsion by particle size and zeta potential measurement

- 8) To study the influence of air-entrapment on Rheology of cream.
- 9) To study in-vitro release of medicaments from ointments.
- 10) To evaluate antibiotic ointment by microbiological assay.
- 11) To evaluate acid neutralising capacity of marketed antacid preparation.
- 12) Preparation and standardization of vaccine and sera.
- 13) Evaluation of potency of antibiotics by different methods.
- 14) Workshop technology to acquaint with working of lathe, grinders, vices, welding and jobs related to them.
- 15) Formulation and stability of multiple emulsion.
- 16) Studies on drug excipients interactions.
- 17) Evaluation of polymers used in formulations.
- 18) Evaluation of dermatological and transdermal formulation.
- 19) Preparation and evaluation of microspheres.
- 20) Formulation and evaluation of gastro retentive systems.

**Reference Books**

Refer all the books mention for theory subjects.
