

Dear Principal /Director / Vice-Chancellor,

We are going through second corona wave with shortages of oxygen, beds, food in the hospitals, medicine or money in some places while there is excess availability of these resources in some other places in your own town and city. There are people willing to help and people needing help. AICTE has developed a COVID HELP APP for our employees. We wish to share the encrypted code with all the colleges and universities in the country. We request you to host it on your institute server and provide help locally to the needy students, faculty and staff of your institute. Like distributed computing, the stage has come to help in a distributed manner. Governments will do their part, but as citizens and being humane is the need of the hour.

We also appeal to you to provide information about its usage on a google form which will be sent later.

Step-by-Step Instructions:

Fill the form : [https://free.aicte-india.org/aicte\\_internal/college.zip](https://free.aicte-india.org/aicte_internal/college.zip) to download AICTE Covid Helpline source code. Installation instructions, Source code download link and Hosting requirements below.

**Hosting requirements:**

Php, mysql, server with apache/nginx/iis any version php version greater than or equal to 7.0.
